AFFIDAVIT IN SUPPORT OF CRIMINAL COMPLAINT

I, Andres Gomez, being duly sworn, hereby depose and say:

I am a Postal Inspector (PI) with the U.S. Postal Inspection Service (USPIS) and have been so employed since May 2019. I am currently assigned to the USPIS Mail Theft-Mail Fraud Team, which is tasked with the investigation of complex mail theft crimes, including but not limited to, credit card fraud, check fraud, money order fraud and identity theft. I was previously a Special Agent with U.S. Department of Health & Human Service for approximately nine years. I have gained experience in conducting such investigations through training in seminars, classes and everyday work-related investigations. I have personally participated in investigations involving violations of federal law regarding mail theft and criminal groups that engage in such unlawful activity. As an Inspector, I am authorized to investigate violations of the laws of the United States and to seek forfeiture of property under authority of the United States.

**PURPOSE OF AFFIDAVIT**

I make this affidavit in support of a Criminal Complaint against Nitza Mayanin Portillo Hernandez (hereinafter PORTILLO); Edwin Zavala Chavarria (hereinafter CHAVARRIA); Kevin Abel Soriano (possible alias, hereinafter SORIANO); Adrian Pacheco Duarte (hereinafter DUARTE); and Rolando Aguirre (possible alias, hereinafter AGUIRRE). As described below, this affidavit sets forth probable cause to believe the above listed individuals violated Title 18 U.S.C. §1344, Bank Fraud; Title 18 U.S.C. §1028, Fraud and related activity in connection with identification documents; and Title 18 U.S.C. § 371, Conspiracy. Several conspirators have been indicted in other jurisdictions.

Because this affidavit is being submitted for the limited purpose of securing a criminal complaint, I have not included each and every fact known to me concerning this investigation. This affidavit is based on my own personal knowledge, gained from my participation in this investigation; information gained from my training and experience; information received from other law enforcement sources; merchant video and interviews; forensic evidence; and open source information. Not all the facts known to me have been included in this affidavit, only those

necessary to establish probable cause that the above-cited violations were committed by the above-named suspects.

During the period of December 2019 to November 2021, the USPIS received numerous complaints of mail theft and check fraud from the Greater West Houston Area, including addresses in Katy, Harris County, and Fort Bend County as well as from College Station, TX and Bryan, TX. These complaints involved checks being stolen from blue collection boxes throughout the areas mentioned. USPIS discovered that other law enforcement agencies throughout the U.S. were investigating the same group. The investigation revealed the group would clone checks from various companies that hired migrant workers such as dairy farms and other agriculture businesses. The group would have someone work at a place to receive a paycheck and then take the authentic paycheck and duplicate it over and over. The group would then go to stores that are used to cash those types of checks and fraudulently negotiate a large volume of cloned checks. Some of the same suspects were identified through surveillance video and fingerprints as being in various cities, including Juan Carlos Tosta Fonseca and Edwin Chavarria. The group conducted their scheme in Florida, Louisiana, Texas, Maryland, Pennsylvania, Michigan, Oregon, Nebraska and Washington State for an approximate loss of \$1.3 million dollars. Below are summaries of investigations into this group by other law enforcement agencies throughout the United States:

#### **PROBABLE CAUSE**

On October 12, 2021, a Source of Information (SOI #1) provided the following information: A group of individuals were conducting a scheme where they stole checks from the mail, washed the checks to change the payee, and then cashed the checks fraudulently. Fraudulent identifications were being made to match the altered payee names on the checks and bore the

likeness of the member of the group. The individuals involved in the scheme are of Hispanic descent, and the majority are from Honduras. The group had special keys to open the mailboxes and obtain the checks. The group would travel to various cities in Texas and to other states to cash the altered checks at various convenience stores. SOI #1 stated that Nitza Mayanin Portillo Hernandez (PORTILLO) and her husband, Juan Carlos Tosta Fonseca (TOSTA) recruited people to take on these trips to cash the altered checks. PORTILLO would provide the vehicle to transport the suspects out of town and receive a kickback from those she transported. SOI #1 explained that PORTILLO does not typically go on these trips but will coordinate the transportation for the group and also provide the car.

On October 18, 2021, a different Source of Information (SOI #2) provided the following overview of a scheme involving a group of Hondurans and other Hispanics who would obtain altered checks and take the checks to out of town locations and cash the checks with fictitious identifications: SOI #2 was introduced to TOSTA and PORTILLO around Oct 2020. SOI #2 stated TOSTA was the organizer of this group of conspirators, but there are other groups that do the same scheme. SOI #2 stated an unknown person gets the washed checks to TOSTA and TOSTA recruited trusted people to agree to cash the altered checks. TOSTA has fraudulent identifications made for the people who are going to cash the altered checks. The fraudulent identifications match the payee of the altered/washed check and bear the image of the suspects. The group travels out of Houston to other cities in Texas and to other states to cash the checks.

Specifically, SOI #2 stated that around May or June of 2020, TOSTA showed SOI #2 about 15-20 checks and explained the scheme and asked if SOI #2 wanted to participate. TOSTA told SOI #2 that TOSTA would make about \$8,000 for each out-of-town trip to cash checks. Conspirators would provide a kickback to PORTILLO for providing the vehicle to take the trips to cash the checks. SOI #2 stated that TOSTA also told him that they would get people to work for an out-of-town company for one to two paychecks and then quit. The worker would receive a paycheck from the company, bring the paycheck to TOSTA, and TOSTA or his conspirators would use that original check to create multiple copies. The group would then write in payee names on those payroll check copies and recruit people to cash the counterfeit checks. SOI #2 stated that

PORTILLO and TOSTA owned two vehicles, a white Malibu and a white Nissan Path Finder. The group used those vehicles to travel out of town to cash the checks. SOI #2 stated that on one occasion, TOSTA showed SOI #2 a Mexican passport with TOSTA's photo. SOI #2 asked how TOSTA had a Mexican passport if TOSTA was from Honduras. TOSTA told SOI #2 that the conspirators had people to get them Mexican passports. SOI #2 stated that he/she knew TOSTA, PORTILLO, Victor (PORTILLO's brother), Kathy (Victor's wife) and a male they called "Pando" were involved in the scheme. SOI #2 did not know the true name for "Pando," just his nickname. SOI #2 stated that Pando was a close friend of TOSTA, and Pando drove a black Chevy Malibu just like PORTILLO's Malibu. SOI #2 recalled that PORTILLO had an argument with Victor about Kathy (Victor's wife) using her vehicle to transport people to cash the checks and attempting to get kickbacks.

On November 4, 2021, a group of Hispanic males and one female fraudulently cashed checks at Novedades Ana, a store located at 308 Stoney Drive, Cactus, TX 79013. The group cashed approximately 31 fraudulent checks for an approximate loss of \$42,000.00. Some of the checks were payroll checks from Full Circle Jersey's, P.O. Box 1505, Dalhart, TX 79022. The incident was reported to the Cactus Police Department (Report #21001647), which I reviewed for this investigation. According to the investigation and store clerk, the group engaged in the same type of scheme that has been described throughout this affidavit: group members would cash checks, then exit and return in different clothing to cash more fraudulent checks.

On November 4, 2021, a group of Hispanic males fraudulently cashed checks at Joyeria Pisces, 116 W. 8th Street, Dumas, TX 79029. The group cashed approximately 41 checks for an approximate loss of \$54,900.00. The fraudulent payroll checks cashed were from Full Circle Jersey's and from M3 Landscape. The incident was reported to the Dumas Police Department (Report #20211160), which I reviewed for this investigation. Again, according to the investigation and store clerk, the group engaged in the same type of scheme that has been described throughout this affidavit: group members would cash checks, then exit and return in different clothing to cash more fraudulent checks.

On November 4, 2021, the Dalhart Police Department (DPD) arrested a group of Hispanic males who were cashing fraudulent checks at the Depot Discount Liquor, 621 US-87, Dalhart, TX 79022. When the store operators notified law enforcement, the suspects who were cashing the fraudulent checks fled the scene. Four suspects fled in a white Nissan Pathfinder and the others on foot. DPD recovered checks (some from Full Circle Jersey's) and suspected fraudulent identification cards. Surveillance video was obtained of the group cashing the fraudulent checks at the Depot Discount Liquor. Of the many fleeing suspects, Kevin Abel Soriano (possible alias), Adrian Pacheco Duarte, Rolando Aguirre, and TOSTA were arrested in this incident. The white Nissan Pathfinder that was recovered by DPD was registered to PORTILLO, TOSTA's wife. All of the information from the incident can be found on DPD (Report #202110577), which I reviewed for this investigation.

On November 5, 2021, SOI #1 and SOI #2 were shown various photographs from different counterfeit payroll check cashing incidents throughout various states. SOI #1 and SOI #2 identified a Hispanic male from photographs as "Pando." Through research and comparison of Pando's photograph with those in law enforcement databases, Pando was identified as Edwin Chavarria, who had previously been arrested under the alias of Martin Molina Salazar.

The following is a compilation of surveillance images and other evidence pertaining to the targets that were collected from other investigators throughout the United States.
